My company, Elm Construction, specializes in custom renovation work for both commercial and residential clients. It's crucial to our success that we meet project deadlines and present a sparkling clean finished project to our clients at our final walk thru. We have an excellent reputation for timely completion and jobsite cleanliness, which I attribute to Suzanne Wuelfing and her employees at Shine cleaning.

More than once in the past year, we have been on a tight deadline for a business to open or for a residential client to move into their newly renovated home. Suzanne has always been able to schedule the clean-up of our job sites as needed and to staff the project at the level required to meet our deadline. We often have our carpenters or painters punchlisting a project, room by room on the way out of the building, and the cleaners are right there behind them making the place sparkle.

I recommend Suzanne as a great person to work with. I have used her company, Shine, for both general construction clean-ups and end of project final cleans on all types remodeling jobs for several years. Shine does high-quality work for a reasonable price and is consistent, reliable and professional.

If you have further questions about our experiences with Shine, or prefer a personal reference, please contact me at Trey.Greer@ElmConstruction.com

Sincerely,

Trey Greer
